

ZIAD has

takes car ride for one of the target locations and attends a critical meeting with somebody at some place

gets a final acknowledgment for attack and takes a car journey with somebody who has taken pilot training

has relatively lower contribution towards the behavior, takes car ride for one of the target locations and attends a critical meeting with somebody at some place

Moreover,

ZIAD is the only among people in the dataset who has never

gets a final acknowledgment for attack and goes for a car ride to the target location with somebody who has taken flight class

gets final call for attack and takes car visit to the target location with somebody and goes for a car ride to the target location with somebody who has taken flight training

gets final call for attack and takes car visit to the target location with somebody and takes a car journey with somebody who has taken pilot training
