Individual Assessment Form

Name:

Student Id:

Group Number:

Assessment of group:

You, as a member of a group, have to submit this form together with every group submission. Here, you report your judgement on the level of contribution of each individual group member.

The total number of points you are to allocate to your group depends on the number of students in the group. For each group member, 5 points are to be allocated. Hence if there are 7 students in a group, the group's total number of points is 35 (7 * 5), which is to be allocated amongst the students in the group. An allocation of 5 points indicates that you think the group member has made a fair and reasonable contribution to the submission. An allocation of more that 5 points indicates that the student has done more than a fair share of the workload. An allocation of less than 5 points indicates that the student has contributed less than his/her share of the project.

	Name	**Points Allocated**
